

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the Instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING

KEEP BATTERIES AWAY FROM CHILDREN. HARMFUL IF SWALLOWED.

- STORE OUT OF REACH OF CHILDREN. THIS PRODUCT IS NOT A TOY.
- SUFFOCATION/CHOKING HAZARD: To avoid danger of suffocation or choking, keep plastic bags away from babies and children.
- EYE HAZARD: Do not look directly at the sun or other intense light sources with binoculars. Such viewing could cause instant and irreversible eye damage.
- LASER HAZARD: Do not look into beam or point laser light into the face or eyes of others. Direct contact may cause severe eye damage.
- STRANGULATION HAZARD: Keep neck strap out of reach of children. If children use the binoculars adult supervision is required to avoid injury.
- TRIP/FALL HAZARD – Do not use the binoculars while walking. User may be injured by tripping, falling or colliding with unseen objects.
- If you experience pain while using this product, discontinue use immediately.

HOW TO CLEAN

1. If the lenses become dirty gently wipe the lens surface with a soft, dry lens cleaning cloth (not included) to remove any dust or debris. (Figure J)

NOTE: Do not attempt to clean the main unit or lenses by running under water. Water can cause the lenses to become damaged and mold to grow in the unit.

Figure J

2. To clean the main unit, wipe down with a soft damp cloth. (Figure K)

NOTE: Store the Night Hero Binoculars™ in a dry, well-ventilated place.

Figure K

HOW TO USE

1. Adjust the barrels of the binoculars to fit between your eyes by pushing them together or pulling them apart. (Figure F)
2. Hold the binoculars firmly in the viewing position. Choose an object to view that is at least 15 meters (49ft) away.
3. Adjust the binoculars until a single circle field is viewable with both of your eyes. (Figure G)

NOTE: To better focus the binoculars rotate the center focus knob until object is in clear view.

LASER OPERATION

1. Turn the laser on by pressing and releasing the green laser ON/OFF button. (Figure H)
NOTE: Green laser ON/OFF button will make a slight click sound to indicate proper operation.
2. While the laser is ON it will project continually. (Figure I)
3. To turn the laser OFF, simply press and release the green laser ON/OFF button or until laser light disappears.

NOTE: Using the laser at night will illuminate objects otherwise not seen.

WARNING: Do not shine the laser in or near your or someone else's eyes.

NOTICE

- Never immerse Night Hero Binoculars™ into any fluid or liquid. This product is not waterproof or water resistant and will be damaged by immersion.
- Do not store this product in an environment in which temperature exceeds 100° F (35° C).
- Store and handle binoculars with care. Night Hero Binoculars™ are precision instruments. Dropping or impacts may cause damage. Never attempt to disassemble or repair this product to avoid malfunction.

CAUTION

- Do not use Night Hero Binoculars™ in any manner other than that intended by manufacturer to avoid exposure to hazardous laser radiation.
- Do not intentionally shine into eyes or face.
- Do not attempt to open the housing of Night Hero Binoculars™ under any circumstance.

Please observe warning labels on product:

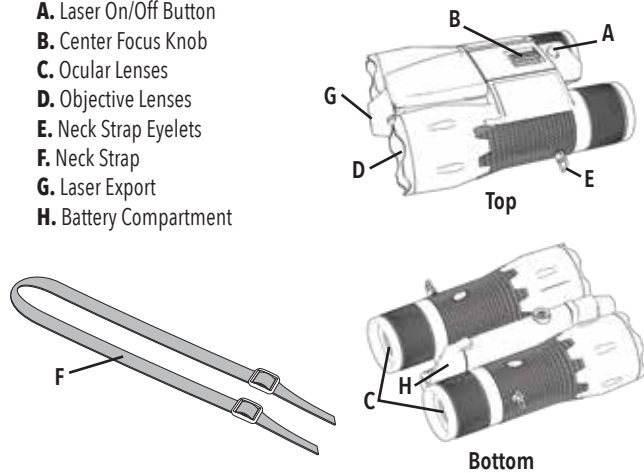

NOTICE: Lasers should not be projected at or within the flight path of an aircraft within 10 nautical miles of an airport. If your intended target is within 10 nautical miles of an airport, do not point laser into the sky.

BATTERY INSTALLATION

1. Open the battery compartment cover. (Figure A)
2. Insert 2 AAA batteries (not included) into the battery compartment. Make sure to line up the (+) and (-) markings on the battery with the (+) and (-) markings on the inside of the battery compartment. (Figure B)
3. Reinstall the battery cover.

NECK STRAP INSTALLATION

1. To attach the Night Hero Binoculars™ neck strap, find the eyelets located on both sides of the binoculars. Then thread both ends of the strap up through the eyelets. (Figure C)
2. Thread the strap through the first loop of the plastic strap brackets. (Figure D)
3. Continue to thread the strap through the second loop of the plastic strap brackets. (Figure E)

NOTE: Adjust the neck strap to the desired length by releasing the slack out of the strap - slide the buckle away from or toward the binoculars to shorten or lengthen the strap. Once desired length is achieved pull both ends of the strap to tighten.
